Plan your species binder

Scope: one slot for each numbered species, #0001-#1025.

A tick records a card you own; this is not a list of every TCG printing.

Leave a slot empty if a suitable card is unavailable in your chosen language.

Regional forms, Mega Evolutions and shiny cards may share a species slot.

Choose a normal affordable printing first; upgrade favourite artwork later.

Binder space (one card in each pocket):

9-pocket sides: 114 sides, or 57 double-sided pages (1,026 pockets).

12-pocket sides: 86 sides, or 43 double-sided pages (1,032 pockets).

Double-sided pages means pockets on both faces, not two cards in one pocket.

Check actual binder capacity before buying; allow room for future additions.

Revealed Generation X species - separate from the numbered checklist:

- ☐ Browt - National Pokédex number not assigned here
- ☐ Pombon - National Pokédex number not assigned here
- ☐ Gecqua - National Pokédex number not assigned here

A reveal does not establish that a matching TCG card is available.
